

DIRECTOR, INFECTION CONTROL

Memorial Medical Center (MMC) is the flagship hospital of Memorial Health System. MMC, located in Springfield, IL, is an acute care hospital with 562 licensed beds as well as a teaching hospital, affiliated with Southern Illinois University School of Medicine.

We are seeking a candidate to provide leadership and support to the MMC leadership team, nursing, medical staff, and other stakeholders in matters relating to infection control surveillance, detection, improvement and prevention. Leadership and support will be provided in the form of a formal infection control/prevention program that includes but is not limited to education, tracking and reporting, process consultation and improvement, and building an infection control/prevention cultural. Additional duties include assisting, coordinating, and leading efforts related to continually maintaining or exceeding regulatory/accreditation standards and actively supporting the pursuit of Baldrige level organizational performance.

To view a complete listing of position requirements and to apply online, please visit our website at www.memorialmedical.com. For additional information, please contact Jennifer Davis, Human Resources, Memorial Medical Center, 701 N. First, Springfield, IL 62781-0001, phone at (217) 788-2177.

The Society for Healthcare Epidemiology of America
(SHEA) announces a new
publisher for its official journal,

INFECTION CONTROL AND HOSPITAL EPIDEMIOLOGY (ICHE)

SHEA and the University of Chicago Press are pleased to inaugurate a publishing alliance that will bring greater visibility to the journal's presentation of important research in healthcare epidemiology and infection control.

Immediate benefits of the new partnership, which begins with the January 2006 issue, are

- Rapid release of articles in HTML and PDF format
- HTML links from the tables of contents
- Online-only features such as links to Pub Med, the *Journal of Infectious Diseases* and *Clinical Infectious Diseases*
- Full text searchability
- E-mail tables of contents notification with electronic links to the articles

THINK

rapid, persistent, superior

ChloroPrep®

A RAPID-ACTING, PERSISTENT AND SUPERIOR PREOPERATIVE SKIN PREPARATION

- Rapid activity against gram-positive and gram-negative bacteria
- Persistent antimicrobial activity—prevents regrowth of microorganisms on the skin for at least 48 hours
- Unlike povidone-iodine, Chlorhexidine (CHG) remains active in presence of blood, serum, and other protein-rich biomaterials¹
- CHG has demonstrated a 50% reduction in the incidence of catheter-related bloodstream infections compared to povidone iodine¹

- Sterile
- Single-use
- Latex-free
- Hands-off
